

Mell Square

Transformative change for
Solihull town centre

Howells

Plans for the **regeneration of Solihull town centre's Mell Square** have been unveiled by Muse, the nationwide placemaker, in partnership with Solihull Council.

Designed by Howells, the plans will **re-invigorate** the area and **unlock its full potential** with new public spaces, leisure facilities, and homes—as part of a diverse and mixed-use community.

Mell Square will **enhance** Solihull's existing visitor experience with new shops, experiences, and facilities curated to respond to the emerging community and serve the town centre more widely.

“It’s important that we plan and invest now so that Solihull town centre remains an exciting, thriving and accessible place for people to enjoy. I’m really excited with what Muse and Howells have produced so far and am looking forward to consulting on our emerging masterplan soon.”

Cllr Ian Courts,
Leader of Solihull Metropolitan Borough Council
